Introduction to NPSP Releases

Power of Us Hub

The screenshot displays the Power of Us Hub website. The top navigation bar includes links for Home, Chatter, User Groups, Knowledge, and Best Practice Nuggets, along with a search bar and a user profile icon. The main banner features a large image of a woman speaking at a podium, with the text "Share Your Story! Dreamforce Call for Speakers is LIVE! learn more >". To the right, there's a "Hub Heroes" section with a "WOW!" comic-style graphic and a "Join our next Circle of Success" section with a circular icon. Below the banner, there's a "Ask the community" section with a search bar. The bottom section shows a list of questions, with the first one being "Is there a way to report on Contacts with or without Contact Addresses in Advancement Connect?" by David Bruce (ACF Solutions), posted 32m ago. The question has 0 likes and 1 reply. The tags for this question are Advancement Connect, Fundraising, and Reporting & Analytics.

What's in the Latest Release?

Sometimes a bit more

 **Nonprofit Starter Pack** — Jason Lantz (salesforce.com)

Nonprofit Starter Pack version 3.7.1 is being pushed to production tonight.

Changes

- Community fix for issue #1995 from @Christian Carter (Bigger Boat Consulting). Thanks Christian!
- API Version of NPSP codebase has been upgraded to 35.

Issues Closed

- #1964: Test failures in new dev orgs with duplicate rules enabled by default
- #1974: Deleting Honoree Contact causes unexpected exception
- #1975: If Contact's Account is Organization Account, Campaign Member functionality does not work
- #1995: Find Matching Gifts could potentially match itself
- #2015: If Opportunity RecTypes/Types are excluded from Account/Contact Rollups, soft credits should not roll up either
- #2023: Change Related List Label on Opportunity.npsp__Matching_Gift_Account__c from 'Opportunities' to 'Matched Gifts'
- #2044: Bulk Data Process - "Refresh Opportunity Names" has wrong header text.

For full details on the resolved issues, please see the full release notes on Github:

<https://github.com/SalesforceFoundation/Cumulus/releases/tag/rel%2F3.7.1>

What's in the Latest Release?

Sometimes a lot (with documentation)

Nonprofit Starter Pack — Jason Lantz (salesforce.com)

Nonprofit Starter Pack version 3.66 is being pushed to production later tonight.

Changes

- The Contact Merge page has been updated to use Lightning styles.
- The Account Model Conversion Utility page has been updated to use Lightning styles.
- In-Kind Gift support has been added to NPSP. Additions include 4 new Opportunity fields, 1 Opportunity Page Layout, 1 Workflow Rule, and 1 Field Update. Please see the provided documentation to enable this feature and configure your system to support In-Kind Gifts.

Issues Closed

#1940: unexpected results for a 3-way Contact merge
#1950: NPSP Settings for Address: Settings not saved: Attempt to de-reference a null object.

For more details on the issues closed, please see the release on Github:
<https://github.com/SalesforceFoundation/Cumulus/releases/tag/rel%2F3.66>

Understanding Releases

Permanent Documentation

The screenshot shows the Salesforce NPSP documentation interface. At the top is a blue navigation bar with the 'US' logo and links for Home, Chatter, User Groups, Knowledge, Ideas, and Best Practice Nuggets. On the right of the bar are links for Posts, a search bar, and a user profile. Below the navigation bar, the main content area has a title 'NPSP: Soft Credit and Matching Gift Setup' preceded by a book icon. To the right of the title are social sharing icons for Facebook, Tweet, LinkedIn, Google+, and Email. The text below the title states that the Matching Gifts feature and enhanced Soft Credits fields are available by default in NPSP 3.63 and later, and provides instructions for users who started using NPSP prior to version 3.63. A bulleted list of steps is provided: Enable Matching Gift and Soft Credit Fields, Enable Partial Soft Credit Object, Configure Page Layouts, and Enable Opportunity Picklist Field for Record Types. A note indicates that users who started using NPSP after version 3.63 can skip this section. Below this is a shaded box titled 'Enable Matching Gift and Soft Credit Fields' which contains a double-check instruction and a list of fields for the Account Object: Matching Gift Administrator Name, Matching Gift Amount Max, and Matching Gift Amount Min.

NPSP: Soft Credit and Matching Gift Setup

The Matching Gifts feature and enhanced Soft Credits fields are available by default in NPSP 3.63 and later. If you started using NPSP prior to version 3.63, you'll need to do the following:

- Enable Matching Gift and Soft Credit Fields
- Enable Partial Soft Credit Object
- Configure Page Layouts
- Enable Opportunity Picklist Field for Record Types

If you started using the NPSP after version 3.63, you can skip this entire section and move on to [Configure Soft Credit and Matching Gift Rollup Settings](#).

Enable Matching Gift and Soft Credit Fields

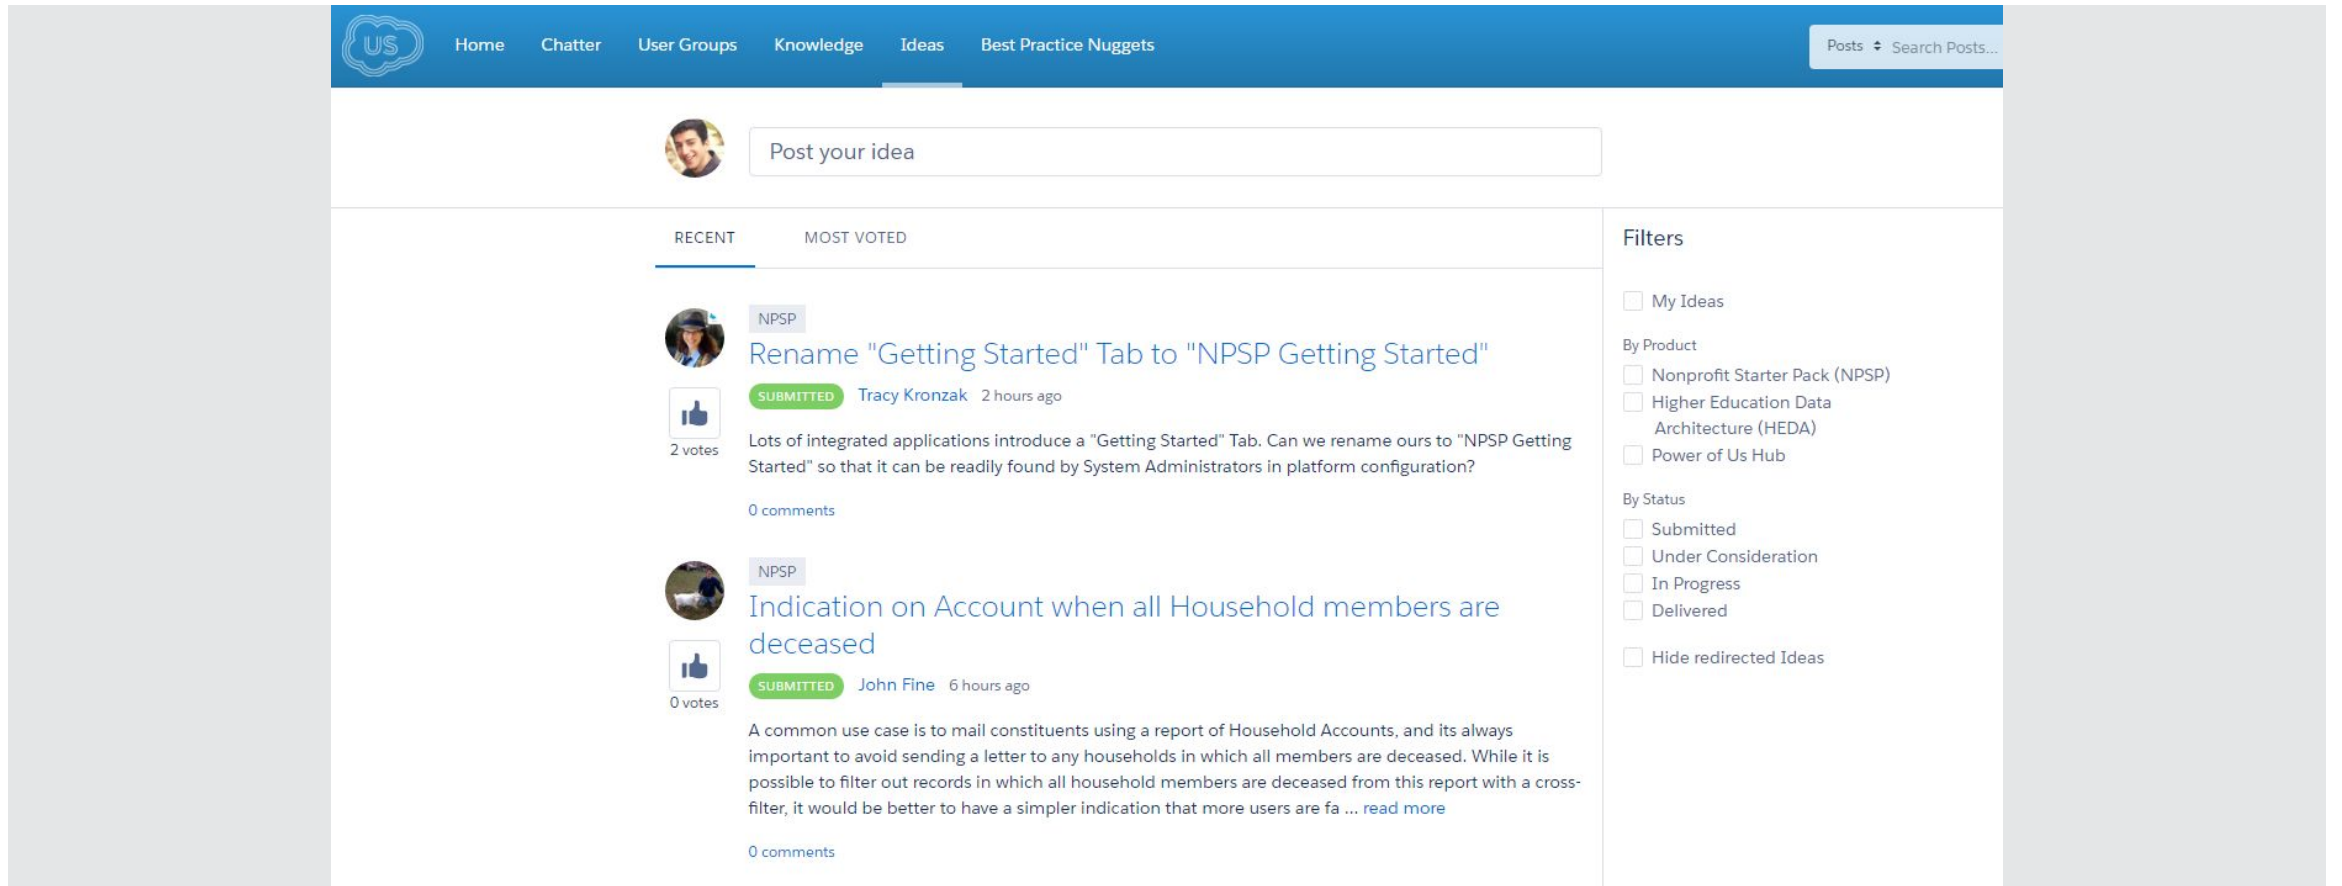

Double check that System Administrators and relevant Profiles/Permission Sets have access to these fields. (See [Enable New Features](#) for general instructions on how to enable new features in the Nonprofit Starter Pack.)

Account Object:

- Matching Gift Administrator Name
- Matching Gift Amount Max
- Matching Gift Amount Min

Power of Us Hub Idea Exchange

The screenshot displays the Power of Us Hub Idea Exchange interface. At the top, a blue navigation bar contains the 'US' logo and links to Home, Chatter, User Groups, Knowledge, Ideas, and Best Practice Nuggets. A search bar on the right of the navigation bar says 'Posts Search Posts...'. Below the navigation bar, there is a section for 'Post your idea' with a user profile picture and a text input field. The main content area is divided into two tabs: 'RECENT' and 'MOST VOTED'. The 'RECENT' tab is active, showing a list of ideas. Each idea entry includes a user profile picture, a status label (e.g., 'NPSP'), the idea title, a 'SUBMITTED' button, the submitter's name, the time since submission, the number of votes, and the idea description. The first idea is titled 'Rename "Getting Started" Tab to "NPSP Getting Started"' by Tracy Kronzak, submitted 2 hours ago, with 2 votes and 0 comments. The second idea is titled 'Indication on Account when all Household members are deceased' by John Fine, submitted 6 hours ago, with 0 votes and 0 comments. On the right side of the interface, there is a 'Filters' section with checkboxes for 'My Ideas', 'By Product' (Nonprofit Starter Pack (NPSP), Higher Education Data Architecture (HEDA), Power of Us Hub), 'By Status' (Submitted, Under Consideration, In Progress, Delivered), and 'Hide redirected Ideas'.

Rename "Getting Started" Tab to "NPSP Getting Started"

SUBMITTED Tracy Kronzak 2 hours ago

2 votes

Lots of integrated applications introduce a "Getting Started" Tab. Can we rename ours to "NPSP Getting Started" so that it can be readily found by System Administrators in platform configuration?

0 comments

NPSP

Indication on Account when all Household members are deceased

SUBMITTED John Fine 6 hours ago

0 votes

A common use case is to mail constituents using a report of Household Accounts, and its always important to avoid sending a letter to any households in which all members are deceased. While it is possible to filter out records in which all household members are deceased from this report with a cross-filter, it would be better to have a simpler indication that more users are fa ... Bug fixes and enhancements on GitHub

The screenshot shows the GitHub interface for the `SalesforceFoundation / Cumulus` repository. The top navigation bar includes links for `<> Code`, `Issues 256`, `Pull requests 3`, `Wiki`, `Pulse`, and `Graphs`. On the right, there are buttons for `Watch 67`, `Star 118`, and `Fork 109`. Below the navigation bar, there is a search bar with the text `is:issue is:open`, buttons for `Labels` and `Milestones`, and a green `New issue` button. The main content area displays a list of 256 open issues. The issues are sorted by default, and the list includes columns for `Author`, `Labels`, `Milestones`, `Assignee`, and `Sort`. The issues listed are:

- #2111** `moving contact to new household account should preserve their mailing address` (accepted) 2 comments
- #2110** `Unable to change household account to org account` (accepted, bug) 3 comments
- #2101** `Data Import: Contact True checkbox fields are updated to False in import` (accepted, bug) 2 comments
- #2095** `System.LimitException: npsp:Too many DML statements: 151` 8 comments
- #2091** `Manage Household UI need to consider user's security permissions` (accepted, bug) 2 comments
- #2090** `Allow Lead convert page to be accessed in Salesforce1 mobile` (accepted) 2 comments
- #2089** `Recurring Donations object should be set to 'Allow Activities'` (accepted) 2 comments
- #2087** `Health Check icons need some spacing on their top` (accepted) 2 comments
- #2085** `Checkbox to prevent batch Opportunity renaming on individual records` (accepted, enhancement) 6 comments

NPSP: Create and Manage In-Kind Gifts

This article contains the following sections:

- [Overview](#)
- [Setup—Before You Begin](#)
- [\(Optional\) Configure In-Kind Gift Settings](#)
- [Create In-Kind Gifts](#)

Overview

An In-Kind Gift is a donation of goods or services, rather than a cash donation, to a nonprofit organization. Examples of In-Kind Gifts include computers, food, clothing, equipment or professional expertise. In Salesforce, In-Kind Gifts should be kept separate from cash donations, as the value of the gift is not reported in the same manner as cash contributions.
